

BARGAIN BUNKS

In the industry we call a neatly stacked bundle of lumber a *bunk*. Bunks often have narrow strips of wood called *stickers* between each layer, and the layers are banded together to create a tidy bundle. Lumber from our bargain bunks can be used to clad a wall, ceiling or soffit. Build a bed, bench, or barn door. Update your trim with some authentic Montana corral board. Give the chickens a new coop. Craft custom picture frames. Bring your honey-do list and we'll help you find the right bunk for the job from our ever-changing inventory of over 500 hundred bunks.
